Established in 1988, the Morningstar Fund Manager of the Year award recognized portfolio managers who demonstrate excellent investment skill and the courage to differ from the consensus to benefit investors. To qualify for the award, managers' funds must have not only posted impressive returns for the year, but the managers also must have a record of delivering outstanding long-term performance and of aligning their interests with shareholders'. The Fund Manager of the Year award winners are chosen based on Morningstar's proprietary research and in-depth evaluation by its fund analysts. The receipt of a high Morningstar rating does not ensure positive Fund performance. Past performance does not guarantee future results.
